

## Testimonials for Advanced Technology 7 Health Pad

**Hi Richard,**

**I have the Advanced Technology 7 Health Pad. I have it under my sheet and sleep on it every night. I've had pelvic floor issues for a number of years and have seen several doctors with minimal success. I was getting up several times in the night to go to the bathroom. It was becoming almost a mental problem. After using the Health Pad, I go only once or maybe twice. Understandably, I'm doing all I can with diet, plasma water, etc. to prevent these nocturnal visits to the bathroom, but I did notice a HUGE improvement. I think the Health Pad balances my whole body. I wouldn't be without it.**

**Thank you for carrying such healing products.**

**Ursula**

**I decided to sleep on my Advanced Technology 7 Health Pad, so I put it in my bed when I got it. Nothing much happens when I'm lying on it except that, sometimes, I can feel the blood in my lower legs actually circulating. In the daytime, my hips pop as though things are moving around and shifting in that area of my body. All in all, I'm quite pleased.**
