

## Testimonials for the Advanced Technology 7 Lumbar Health Waist Band

**Richard**

**I am pleased to inform you that the Advanced Technology 7 Lumbar Health Waist Band has performed a miracle on my back. As I told you before, I have a 40-degree scoliosis, which has been problematic most of my life. This strap has removed ALL THE LOW BACK PAIN AND RESTORED RANGE OF MOTION ON THE 2ND DAY.**

**I am able to function with no difficulty.**

**I am so grateful to have you as my guide and help others in need as well.**

**Thank you, Charlie October 11, 2019**

**Richard,**

**A few words about the new Advanced Technology 7 Lumbar Health Waist Band.**

**I had back fusion surgery 15 months ago, fusing S-1, L-4&5. The back muscles must be disconnected from the spine to insert the screws and rods. That process leaves a lot of scar tissue as the tissue re-connects to the spine. Those tissues stiffen up after sleeping or driving any distance.**

**Wearing the belt for half the night has magically ended the stiffening and my back is now without pain and inflammation and it is continuing beyond the topical applications that I had been using. Promised results have been realized. Thank you to you and all who have created this belt.**

**Hi Richard,**

**I am loving this Advanced Technology 7 Lumbar Health Waist Band and find it even more effective than the Keshe Plasma Waist Wrap (which was also very effective!). I wear it or lie on it several hours a day and it seems preventative as well as palliative.**

Thank you for all that you do. I am enjoying so many of your products and look forward to receiving all of your informative emails. I am very excited about the new 5G protection technology!!!!

All the Best, Sheila July 2019

I definitely like the new Advanced Technology 7 Lumbar Health Waist Band more than the previous version that I purchased. Maybe the magnets help. I've had a lower back issue for years so I think it will probably take a while. (Maybe just my belief that it will take a while?). It definitely helps my back feel better - more like the magnet pad I've used on my back before - kind of a cool, relaxed feeling. I think it is helping but maybe too early to know how much. I use it mostly when I am meditating or in the evening when I'm sitting or lying down and don't have to fasten it around my waist.

Hope you are doing well! Louise July 2019

There is 'magic' in the Advanced Technology 7 Lumbar Health Waist Band. I wore it consecutively for about 14 days. Then, upon daily inquiry of my body, less frequently. It became such that I only wore it on days when there seemed to be a 'flare' of pain.

The lumbar belt brought the pain level lower and lower.

You may or may not want to print the following (I have chosen to share it because I often speak to people about the role of emotional and spiritual underpinnings to health issues, and this is a wonderful example):

**My continued quest for wholeness brought me, in a most interesting way, to a healer who discovered (w/o knowing my story) emotional walls around specific untoward issues in my life. She named them; I confirmed; she released them.**

**My back, hips and knees have responded by becoming pain free.**

**I'm looking forward to moving forward in every way!**

Regards,

Colleen
