

## Testimonials for the SoftMAG Eye Mask

The testimonials below include those for the earlier Keshe Foundation Eye and Migraine Mask because the SoftMAG Eye Mask is a more advanced version of the same fundamental technology.

**Hi Richard,**

**I ordered the eye mask because I was having some very sharp pains in one of my eyes. Once it arrived, I used it a few times during the day and also wore it while sleeping a few nights.**

**Within a week the pain was gone and all has been well ever since.**

**Blessings and thank you.**

**Rev. Merriam Joan Handy**

**Hiya Richard,**

**I am very pleased with my Magravs Energizer & Alkalizer and feel a whole lot better; lots more energy, better skin, etc. since using it. I have also purchased the Plasma Eye and Migraine Mask and find it relieves eye and neck pain! I am now awaiting the Plasma Foot Insoles.**

**Love Sue from Mallorca! September 21, 2018**

**Hi Richard,**

**I received the Plasma Eye and Migraine Mask near the end of September. I have suffered from migraines since age 14, I am now 68 and still migraine attacks occur, and sometimes they are very debilitating. A migraine knocks you out for a day or longer and since I am older, it seems harder to come through for my body. My blood pressure gets dangerously high, measured by ambulance medics at 100-185 during an attack.**

**I am using triptans to cut the attack, but this medication has severe drawbacks, like dependence when one takes this medicine too often.**

**In spite of this I have been able to live a life with a family, work and my own spiritual development.**

I tried a lot of things, and sadly they do not work. I tried the Eye Mask the first time when an attack was already in second stage, and I used it too long; it did not work.

But yesterday evening I felt a headache beginning and decided to give the mask a second chance. I put it on and went to bed, I felt the pain shift from my forehead, behind my eyes to my neck, so I moved the mask there. I did replace the mask several times during about an hour. In the night I used it two more times, when I woke up this morning, I felt a little cloudy in my head, but no Pain!

I feel very thankful for this result, which for me, coming through the night and the migraine attack was cut off without any medication, is like a miracle!

I will be using the Eye Mask in the future.

Thank you and Mr. Keshe for your work!

Anouk. The Netherlands. October 13, 2018

I purchased the Eye Mask because I have migraines all of the time. Also, I do not sleep well and my eyes do not see as clearly as they used to. Results after using the Eye Mask: My migraines have diminished to a degree and I hope the more I use the mask they will eventually go away.

I am sleeping better than I have ever slept.

Not seeing anything major with my eyes yet but it has only been 2 weeks.

Going to order one for my son.

Kathy Milstead November 7, 2018

Hi Richard,

I bought the Plasma Eye Mask for eye irritation and pain due to living in a high desert dry environment for 20 years, now, and also from watching computer screens most of the day. I am in my seventies and don't want to accept age-related pain either!

I put the Mask on at bedtime, at first for about 10-15 minutes and after I felt comfortable using it, for an hour and sometimes fell asleep still wearing it. I have never left it on all night, waking up after a few hours and removing it.

It was a couple of weeks before I really noticed results, but I also did not use it every day. It has removed the pain and burning in my eyes soon after putting it on. Recently, I noticed that when I put on my reading glasses, my eyes began to hurt and the pain stops after I take my reading glasses off, so I ask if this means my vision is changing from wearing the mask? I think it is too soon to tell. (Most likely, Nancy's eyesight is improving, as has happened in other cases – Richard)

Also, I recently had a fall on some ice and injured my arm and shoulder, with pain also going into my neck. At bedtime, I put the Eye Mask on top of my shoulder and sometimes on my neck and the pain dissipates. I also had soreness in one hip from the fall, and when I put the Eye Mask under my hip at bedtime, the soreness dissolved. I now will use the Eye Mask more regularly, since I am starting to get results.

Thanks to Mr. Keshe for his service to humanity and thanks to you, Richard, for a wonderful job introducing these products.

Hello Richard.

Yes, I did purchase the Plasma Eye and Migraine Mask. I find it helpful when I get a pain related to my TMJ (jaw joint). I wear it sideways across my ear for this. I also find it

soothing when wearing it for my eyes. I have had a Pain Pad for three years and always find it useful for my arthritis as well.  
Thank you, Jesse. December 8, 2018

Hi Richard,

I have ordered the Plasma Eye and Migraine Mask and I can confirm very good benefit to my near vision and also that my headaches have now gone for good.  
Mustapha aka,,, Apha the Highlander September 19, 2018

Hello Richard,

I love my eye mask. Thank you so much for making this product available.

I highly recommend it!

I am so thankful for this product. When I can afford it, I plan to purchase the GANS Pack with Health Protocols to use it.

With much love and gratitude, Cynthia Rose Schlosser. September 28, 2018
